

# Weekly Report of CNCERT

## Key Findings

Infected Computers in Mainland China	• 0.28 Million	↑ 1.2%
Defaced Websites in Mainland China Defaced gov.cn	• 1,045 • 30	↑ 40.1% ↑ 87.5%
Backdoored Websites in Mainland China Backdoored gov.cn	• 994 • 11	↓ 3.7% ↓ 21.4%
Phishing Webpages Targeting Websites in Mainland China	• 889	↓ 16.4%
New Vulnerabilities Collected by CNVD High-risk Vulnerabilities	• 165 • 44	↓ 63.5% ↓ 67.2%

▬ marks the same number as last week; ↑ marks an increase from last week; ↓ marks a decrease from last week

## Malware Activities

The infected computers in mainland China amounted to about 0.28 million, among which about 0.19 million were controlled by Trojans or Botnets and about 0.09 million by Confickers.

## Website Security

This week, CNCERT monitored 1,045 defaced websites, 994 websites planted with backdoors and 889 phishing web pages targeting websites in mainland China.

This week, the defaced government (gov.cn) websites totaled 30 (2.9%), an increase of 87.5% from last week. Backdoors were installed into 11 (1.1%) government (gov.cn) websites, which decrease by 21.4% from last week. The fake domains and IP addresses targeting websites in mainland China reached 418 and 146 respectively, with each IP address loading about 6 phishing web pages on average.

Domain Categories of the Defaced Websites in Mainland China (Apr 2-Apr 8)

Domain Categories of the Backdoored Websites in Mainland China (Apr 2-Apr 8)

## Vulnerabilities

This week, China National Vulnerability Database (CNVD) recorded 165 new vulnerabilities. This week's overall vulnerability severity was evaluated as high.

### Objectives Affected by the Vulnerabilities Collected by CNVD (Apr 2-Apr 8)

The Application was most frequently affected by these vulnerabilities collected by CNVD, followed by the Web application and the Security product.

For more details about the vulnerabilities, please review CNVD Weekly Vulnerability Report.

China National Vulnerability Database (CNVD) was established by CNCERT, together with control systems, ISPs, ICPs, network security vendor, software producers and internet enterprises for sharing information on vulnerabilities.

### Incident Handling

This week, CNCERT has handled 424 network security incidents, 155 of which were cross-border ones, by coordinating ISPs, domain registrars, mobile phone application stores, branches of CNCERT and our international partners.

#### Types of the Incidents Handled by CNCERT (Apr 2-Apr 8)

Overseas reported incident handled by coordinating domestic organizations

9

Domestically reported incident handled by coordinating overseas organizations

146

Specifically, CNCERT has coordinated domestic and overseas domain registrars, international CERTs and the other organizations to handle 389 phishing incidents. Based on industries that these phishing targets belong to, there were 376 banking phishing incidents and 5 government websites phishing incidents.

### About CNCERT

The National Computer network Emergency Response Technical Team / Coordination Center of China (CNCERT or CNCERT/CC) is a non-governmental, non-profitable organization of network security technical coordination. Since its foundation in Sep.2002, CNCERT has dedicated to carrying out the work of preventing, detecting, warning and handling China network security incidents under the policy of “positive prevention, timely detection, prompt response, guaranteed recovery”, to maintain the safety of China public Internet and ensure the safe operation of the information network infrastructures and the vital information systems. Branches of CNCERT spread in 31 provinces, autonomous regions and municipalities in mainland China.

CNCERT is active in developing international cooperation and is a window of network security incidents handling to the world. As a full member of the famous international network security cooperative organization FIRST and one of the initiators of APCERT,

CNCERT devotes itself to building a prompt response and coordination handling mechanism of cross-border network security incidents. By 2017, CNCERT has established “CNCERT International Partners” relationships with 211 organizations from 72 countries or regions.
