## Incident Handling

This week, CNCERT has handled 554 network security incidents, 175 of which were cross-border ones, by coordinating ISPs, domain registrars, mobile phone application stores, branches of CNCERT and our international partners. Specifically, CNCERT has coordinated domestic and overseas domain registrars, international CERTs, and the other organizations to handle 461 phishing incidents. And CNCERT has coordinated 1 malware download provider to handle 1 malicious URL of the mobile malware.

## About CNCERT

The National Computer Network Emergency Response Technical Team/Coordination Center of China (known as CNCERT/CC) was founded in August 2001. It is a non-governmental non-profit cybersecurity technical center and the key coordination team for China's cybersecurity emergency response community. As the national CERT of China, CNCERT/CC strives to improve the nation's cybersecurity posture and safeguard the security of critical information infrastructure. CNCERT/CC leads efforts to prevent, detect, alert, coordinate and handle cybersecurity threats and incidents, in line with the guiding principle of "proactive prevention, timely detection, prompt response and maximized recovery". CNCERT/CC also operates the China National Vulnerability Database (CNVD).

CNCERT/CC has its presence in 31 provinces, autonomous regions and municipalities across mainland China. CNCERT/CC coordinates with key network operators, domain name registrars, cybersecurity vendors, academia, civil society, research institutes and other CERTs to jointly handle significant cybersecurity incidents in a systematic way. With an important role in the industry, CNCERT/CC initiated the foundation of Anti Network-Virus Alliance of China (ANVA) and China Cyber Threat Governance Alliance (CCTGA).

CNCERT/CC actively carries out international cooperation in cybersecurity and is committed to establishing the mechanism of prompt response to and coordinative handling of cross-border cybersecurity incidents. As of 2025, CNCERT/CC has established "CNCERT/CC International Cooperation Partnership" with 294 teams in 87 countries and regions. CNCERT/CC is a full member of the Forum of Incident Response and Security Teams (FIRST) and one of the founders of the Asia Pacific Computer Emergency Response Team (APCERT). CNCERT/CC has also actively engaged in activities of APEC, ITU, SCO, ASEAN, BRICS and other international and regional organizations.
