Incident Handling

This week, CNCERT has handled 224 network security incidents, 97 of which were cross-border one, by coordinating ISPs, domain registrars, mobile phone application stores, branches of CNCERT and our international partners. Specifically, CNCERT has coordinated domestic and overseas domain registrars, international CERTs, and the other organizations to handle 208 phishing incidents. And CNCERT has coordinated 24 malware download providers to handle 50 malicious URLs of the mobile malware.

About CNCERT

The National Computer Network Emergency Response Technical Team / Coordination Center of China (CNCERT or CNCERT/CC) is a non-governmental, non-profitable organization of network security technical coordination. Since its foundation in Sep.2002, CNCERT has dedicated to carrying out the work of preventing, detecting, warning and handling China network security incidents under the policy of “positive prevention, timely detection, prompt response, guaranteed recovery”, to maintain the safety of China public Internet and ensure the safe operation of the information network infrastructures and the vital information systems. Branches of CNCERT spread in 31 provinces, autonomous regions, and municipalities in Chinese Mainland.

CNCERT is active in developing international cooperation and is a window of network security incidents handling to the world. As a full member of the famous international network security cooperative organization FIRST and one of the initiators of APCERT, CNCERT devotes itself to building a prompt response and coordination handling mechanism of cross-border network security incidents. By 2023, CNCERT has established “CNCERT International Partners” relationships with 289 organizations from 83 countries or regions.
